PROFESSIONAL PROFILE

Software Developer and IT Administrator based in Toronto, with hands-on experience in web applications, REST APIs, databases, infrastructure, systems integration, and process automation. Builds and supports solutions using Python, Django, React, TypeScript, PostgreSQL, Docker, and Git. Previous experience in ERP implementation, NetSuite consulting, accounting, and education provides a strong business perspective and the ability to translate operational requirements into practical technical solutions.

CORE SKILLS

Backend & APIs: Python, Django, Django REST Framework, REST APIs, SQL
Frontend: JavaScript, TypeScript, React, Angular, HTML5, CSS, Bootstrap
Data & infrastructure: PostgreSQL, Oracle SQL, Docker, Nginx, Linux, Git
Tools & domain: GitHub, Bitbucket, Gitea, Jira, Agile, IT support, ERP and NetSuite

PROFESSIONAL EXPERIENCE

IT Administrator & Software Developer

KORT Payments / Barnett | Toronto, ON | Jul 2024 - Present

- Maintain and improve internal technology infrastructure while developing custom solutions for business operations.
- Build and support web applications and integrations using Python, Django, React, JavaScript, SQL, PostgreSQL, and REST APIs.
- Manage containerized environments with Docker and support application delivery through Git-based workflows and Nginx.
- Troubleshoot systems, applications, databases, and infrastructure to support reliable day-to-day operations.

Full Stack Developer

Time Energy | Campinas, Brazil - Remote | Jan 2024 - Jul 2024

- Built and maintained full-stack web application features using Angular, TypeScript, Python, Django, and PostgreSQL.
- Developed and consumed REST APIs connecting frontend features with backend services and data workflows.
- Collaborated remotely using Jira, Bitbucket, GitHub, and Git-based development workflows.

Software Developer Lab Assistant

Niagara College - Toronto | Toronto, ON | Jan 2024 - Apr 2024

- Assisted instructors and students with programming coursework, technical exercises, hardware, and college systems.
- Prepared daily reports documenting classroom issues, observations, and recommended solutions.

RONALDO ADRIANO FERREIRA

Software Developer | Python, Django, React & PostgreSQL | Toronto

NetSuite Senior Consultant

Oracle Brazil | Oct 2022 - Apr 2023

- Designed and delivered functional and technical NetSuite solutions for customers across Latin America, Canada, and the United States.
- Translated customer requirements into implementation plans and integrated business-system solutions.
- Advised customer management on solution design, implementation decisions, and NetSuite best practices.

ERP Systems Implementation Consultant

InformAction Consultoria Empresarial | Brazil | Oct 2019 - Oct 2022

- Mapped customer processes and requirements for ERP implementations across accounting, tax, and financial modules.
- Configured systems, supported end users, and translated Brazilian tax requirements into operational ERP workflows.
- Supported compliance processes including EFD PIS/COFINS, ECD, ECF, and SPED ICMS/IPI.

Accountant

Kalatec Automação | Brazil | Oct 2015 - Oct 2019

- Led accounting operations and indirect-tax compliance activities supporting nationwide sales.
- Applied Brazilian ICMS and ICMS-ST legislation through ERP configuration and operational support.
